

# Mohammad Al-Omari

## Full Stack Javascript Developer

Amman, Jordan | [alamrimohammad959@gmail.com](mailto:alamrimohammad959@gmail.com) | +962780814959  
[LinkedIn](#) | [Github](#)

I'm a Junior Full-Stack Developer with a civil engineering past, deeply skilled in JavaScript. I excel in crafting efficient, user-focused solutions thanks to my customer service experience. Multilingual (English and Arabic), I bring unique problem-solving and effective communication to every project.

### PROJECTS

Ticket Ease ([team project](#)), May 2023 - <https://github.com/orgs/TicketEase/repositories>

- customer service ticketing system aimed at improving the handling of customer inquiries and support requests and ensuring overall customer satisfaction.
- We built React components to communicate with a Node.js Express API server PostgreSQL database.

EV rentals([team project](#)), July 2023 - <https://github.com/orgs/EV-Charger-Rental/repositories>

- a website aimed to allow electric car owners to find chargers in any place they need and to allow chargers owners to potentially profit from their private chargers
- Built React components to communicate with a Node.js Express API server, and socket.io server that will interact with a PostgreSQL database.

### EDUCATION

- Abdul Aziz Al Ghurair School of Advanced Computing (ASAC) - Certificate - Software Development in Full-Stack JavaScript.
- Bachelor from AL-Hussien Bin Talal University-Ma'an  
Major: civil engineering  
(Very Good - 82.55 | 3.1)  
Graduation project Redesign of AL-Hussien Bin Talal University's classroom complex (2017 – 2018) · Overall assessment (Excellent)
